Curriculum Funds Policy

Curriculum funds are made available to K-9 students based on enrollment for a full school year. Students who leave early will have that amount prorated based on the percentage of the school year that they have been with Heritage Christian Online School (HCOS). For example, a student who has been with us for only two months would receive 20% funding. Early transfer out of the school may result in your family being invoiced for overages.

Grade 10-12 Individualized courses receive an advance to purchase curriculum. If the course does not receive an active date (7%-10% of work completed) by April 30th, then any advance funds spent are required to be repaid to HCOS.
