

BC ExamBank

Description

BC ExamBank (K - 12) allows students to write online practice exams in core subject areas for all grade levels from Kindergarten to Grade 12.

This Subscription is available to Enrolled, Flex and Registered families.

The ExamBank consists of practice exams in line with British Columbia's curriculum. In ExamBank, students can practice sample tests in their preferred subject area. They can even concentrate on an individual unit in a course if preferred. A completed test is automatically marked for the student so they can immediately see where their strengths and weaknesses lie. The test results will also explain how to find the answer. This can help jumpstart the student's learning on questions for which they still need to get the correct answer. The tests are randomly generated from many questions so students can write an exam multiple times for better preparation.

HCOS students may access this resource at bc.exambank.com. As the service is entirely web-based, no software needs to be installed, and it works equally well on Windows, Macintosh, or any other computer system with an Internet connection.

Logging In

Log in to [the Search Portal](#) (Use your Encom username and password.) and select the Subs/Passwords tab to find the username and password for BC ExamBank. You do not need to set up an account to use BC ExamBank.

Go to [BC ExamBank](#).

1. Students should NOT log in at the top of the page. Instead, select the grade level.

Using the Subscription

Watch this 4-1/2-minute video to explain how students can use the site [BC ExamBank](#).

Find more information and a practice test in the menu under the three lines at the top right of the page.

Image not found or type unknown

We pay 13 cents for each exam on this site, so when you log in, please take a test.

Students do not set up individual accounts in BC ExamBank. Students can email their teacher their test results after taking the test. (See the instructions below.)

The ExamBank website allows students to begin a new test with just one click rather than retyping the username and password for each new practice session. We have set the ExamBank site to remember login information for

two hours.

When a student completes an exam, select submit at the bottom of the page.

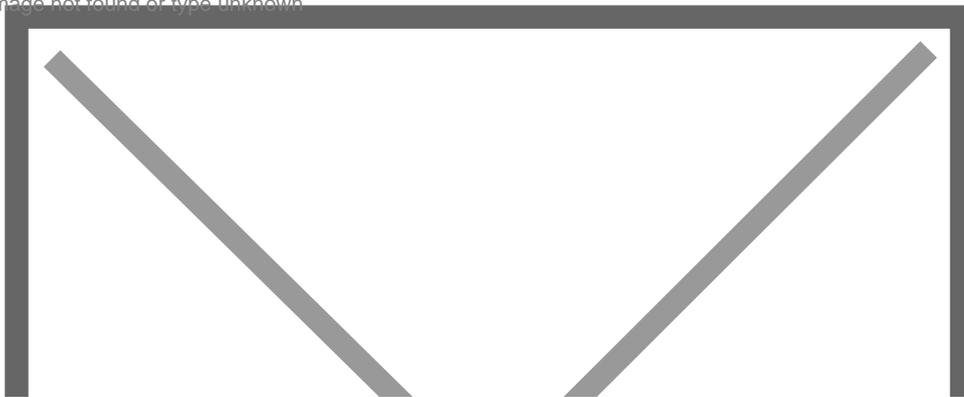

BC Exambank immediately generates the answers for the student. Test results explain the way to find the correct answers. This gives a student a jump-start in understanding questions that they answered incorrectly.

Assessment for teachers

Send test results to your support teacher after the test is submitted and the student has received their results.

Scroll to the bottom of the results page and fill in the form to send your results to your support teacher. Select "Send your results."

Troubleshooting

What if nothing happens when I click on the "Start test" button?

You likely have a pop-up window blocker installed on your computer, and rather than have it configured to just block windows that pop up automatically, it is configured to stop any new windows from opening. Exambank tries to open a new window every time you click on a "Start Test" button. If you click on "Start Test," and nothing appears to happen, simply add bc.exambank.com to your pop-up blockers trusted sites list.

Questions

You can access Margaret Basaraba by email at margaret.basaraba@onlineschool.ca for help with any questions.
