Crew Vision and Values

Vision

To create a fun, safe, and inviting environment for middle school students to grow in their faith and independence as they prepare for their high school years and beyond. Students will learn and try new things with a community of friends and a team of teachers who know them and are invested in their success.

Values

Dynamic: responsive to needs

- Students will be supported from a place of flexibility that is responsive to their individual needs and interests as they navigate physical, emotional, and cultural changes.

Engaging: opportunities to be courageous

- Students will be part of informative, supportive, and inviting environments where they can learn by taking risks and trying new things.

Empowering: building independence

- Students will receive opportunities to become advocates for themselves and others by taking ownership and becoming lifelong learners.

Supportive: collaborative approach

- Students will be encouraged to explore their faith and learn in a safe community where the whole student is considered. They will join a cohort that is committed to supporting their needs, achievements, and passions.
