

Parent Moodle Access

We know tracking student progress through online courses can sometimes be difficult so we have created a way for parents to login to Moodle to view the course, see their progress in each course and a better sense overall of how their education program is progressing. In Moodle you will be able to view the grades, feedback and progress for your students in all their courses.

Access

Access is tied to your parent account in Encom. You can login to <https://lms.onlineschool.ca> using the same login and password as Encom.

Viewing the Information

Once logged in you will see a list of your students and a brief description.

Your Students

Welcome to Moodle!!! This level of access is to give parents the ability to view student progress and feedback from teachers. Students will not have access to their courses. Student courses are accessed via the student's account. If you have not used Moodle before or setup an account for one of your students you can visit <https://hcos.ca/moodle-setup> for steps to setup an account and <https://hcos.ca/moodle-tutorials> for tutorials on how to use Moodle.

Student Progress Report
