## RightNow Media App

The RightNow Media app gives you instant access to thousands of Bible study videos and kids' episodes. Access Biblical video content anywhere, anytime for you and your family! Get the free app with your membership to RightNow Media. New features are now available in their app.

Remember, when using the app, use the advanced search to set the age range available for your children. This blocks older content from their view. The advanced search button is three lines at the top right of the app.

## Audio Mode

Now, you can experience RightNow Media through the 'Audio Only' setting. Tap the headphones at the top right of a video to listen to content at the gym, on your commute, or wherever life takes you.

## Picture-in-Picture

Experience multiple apps with picture-in-picture on your iPad. Videos will continue playing when you return to the home screen, so you can take notes, journal, or follow along with a Leader's guide as you watch. (available for Android soon)

## Support

From "My Profile" in the upper right-hand corner of the page (or the bottom right on the app), choose "Support" for a search bar and a list of "how to" videos. Below are articles that explain how to use RightNow Media and instructions for streaming RNM through your TV, computer, or device. At the bottom, there is contact information for support. The organization tries to answer those very quickly.
