Mission of Seed

In Experiential Design, the goal is that all learning is planted deeply and given the opportunity to be rooted and grounded with solid comprehension. By fully experiencing learning through practical, personal and meaningful projects, students will develop critical thinking, executive functioning, communication skills and creativity.

Learners will be filled up with the richest of opportunities to grow and blossom into who God has created them to be, and also be provided with meaningful interactions and experiences with the world around them as followers of our amazing, loving God.

“ May He grant you out of the riches of His glory, to be strengthened and spiritually energized with power through His Spirit in your inner self, [indwelling your innermost being and personality], **17** so that Christ may dwell in your hearts through your faith. And may you, having been [**deeply**] **rooted and [securely] grounded** in love, **18** be fully capable of **comprehending** with all the saints (God’s people) the width and length and height and depth of His love [**fully experiencing** that amazing, endless love]; **19** and [that you may come] to know [**practically, through personal experience**] the love of Christ which far **surpasses [mere] knowledge [without experience]**, that you may be **filled up** [throughout your being] to all the fullness of God [so that you may have the **richest experience** of God’s presence in your lives, completely filled and flooded with God Himself].
- Ephesians 3:16-19 Amp.
