

Setting up to Read For Change

Setting up your account to start fundraising only takes a few seconds. We've put together a short video for you to watch.

Make sure you finish setting up your profile after you sign-up. Your profile is what visitors will see when they look you up on the website. Make sure you tell them a little bit about why you are fundraising and how they can support you.

Parents: If you need to sign up multiple students with the same address please sign-up with your information (name and email address) on the **Sign Up** page. On the ensuing page please enter the information for your first student. After registering visit your dashboard and use the **Register Another Student** button to signup another student.

Revision #6
