StudyForge Lite Family Guide

StudyForge is a complete digital curriculum that meets British Columbia's learning outcomes and is used by thousands of students across Canada and the US. StudyForge Lite breaks courses into individual modules that can be used by HCOS Foundations students in Grades 5 to 9 to supplement other selected resources.

> StudyForge Lite gives students access to video lessons, readings, interactives, practice questions, projects, and some assignments.
>
> **Tests and quizzes are not included as part of StudyForge Lite.** If students wish to access the full course content, including quizzes, and tests, they must sign up for HCOS online courses.
>
> Please note that many of the assignments were originally written for an online course and may need to be adapted to your context. If you are using these modules with a teacher, please consult the teacher about how any assignments are to be handled
