

# The Role of the Academic Advisor

In the grad program at HCOS, students are connected with an Academic Advisor based on the region where they live. These advisors work alongside students and families throughout their time in the grad program to help plan, support and guide students to successfully complete grade 12.

Academic Advisors are typically available during regular school hours to connect with students and families. They are willing and able to communicate in a variety of ways, including email, phone calls or Zoom chats. Below is a brief outline of what your advisor can help you with, and what things are outside of their responsibilities.
