Using Adobe Creative Cloud

Once your teacher has requested an account and provided you with the login information you can follow the steps below to get started.

1. Download the Adobe Creative Cloud App from
   https://creativecloud.adobe.com/apps/download/creative-cloud
2. Once installed, students select Google as the login method and use the account provided
3. After successfully logging in they will see a listing of programs that may have a **Request Access** button. Please click on the button for the program you want to install to activate and install the app.

If you run into issues or would like a hand, please email tickets@onlineschool.ca and one of our support team will be happy to help walk you through the process.
