

Axis

Axis (Grades 5-12) is geared toward building lifelong faith by helping parents and caring adults talk with teens about topics they might not otherwise discuss. Their vision is to see all caring adults equipped with the conversation, discipleship, and cultural translation skills needed to reach the next generation for Christ. They began as a ministry offering resources to families and youth workers; several years ago, the ministry morphed into an online one and has since expanded. You will notice that this site does not tell you (or your teens) how to think. Instead, it gives up-to-date information and asks questions, which you may use to open discussion with your students or children.

The Culture Translator

The Culture Translator is a weekly email on what's trending in culture and how it affects your teen's world.

It will help you stay up-to-date on the music, movies, TV shows, and social media trends impacting your kid's world. This resource is set up to make it easier to start conversations about the issues that matter most to your kids and provide you with Christ-like responses. It doesn't seek to teach you what to think but rather how to think about these topics through the lens of Jesus. They pray that The Culture Translator will help develop empathy in your heart for all the challenges the next generation faces daily.

You can sign up for the weekly email or explore past editions at <https://axis.org/resource-category/culture-translator/>
