

BrainPOP

BrainPOP (K-Grade 8) is an educational platform with animated videos and engaging resources in various subject areas. There are three resources for different grade levels:

BrainPOP Jr. (K-Grade 3) encourages young learners to ask questions and form their ideas. Each curricular topic includes an animated movie, learning games, concept mapping, and interactive features that help extend key concepts and meet the needs of students with different learning styles. Text is read aloud to facilitate comprehension.

BrainPOP (Grades 4-6) topics include animated movies, concept mapping, learning games, playful assessments, and primary source activities. These engaging resources help build higher-order thinking, cognitive, and literacy skills while encouraging reflection and giving students multiple ways to share their learning. Following each movie clip, students can participate in quizzes, cartoons, and do-it-yourself experiments, and send their quiz results to their support teacher.

BrainPOP Français and BrainPOP Español (Grades 4-8) are intended for students who speak these languages fluently or are looking to reinforce language skills. These sites are not for French or Spanish language learners.

This subscription is not available to HCOS Registered students.

Logging In

There are two account options to sign in with BrainPOP.

- **Shared Account** – All HCOS Enrolled students share this account. All lessons are accessible. Progress is not saved. BrainPOP Science and Make-A-Movie are not available through this account. Find login information in the [Search Portal](#).
- **Individual Student Account** – Support teachers set up accounts for the students. The student's progress is saved. Make-A-Movie and BrainPOP Science are accessed here.

Shared Account

There are three steps to log in to the BrainPOP shared account.

Step 1: Navigate to [BrainPOP](#) and click the “Log In” button in the top right corner.

Step 2: Enter the username and password for BrainPOP from the Subs/Passwords tab in the [Search Portal](#).

Step 3: Select “Keep using a shared account” at the bottom of the screen.

Student work is **not saved** when using the shared account.

Individual Student Account

There are six steps to log into the BrainPOP individual student account.

Step 1: Contact your support teacher and request a BrainPOP code.

Step 2: Navigate to [BrainPOP](#) and click "Enter Code" in the top right corner.

Step 3: Enter the code from your support teacher.

Step 4: Select "Create Account."

Step 5: Complete the fields, then select "Create account."

Step 6: Use the "Log in" button for all future visits.

Navigation & Use

Students can select a specific subject or “Today’s Topic.”

Once a topic is selected, explore the available resources.
