ClickView and Twig

ClickView (Gr. 3-12): An interactive, video-based teaching and learning platform that brings curriculum concepts to life through engaging educational videos and ready-to-use teaching resources. Covering a wide range of subjects and grade levels, ClickView helps teachers introduce new topics, explain challenging concepts, spark discussions, and create meaningful learning experiences both in the classroom and at home.

Twig (Gr. 6–9): A specialized collection within ClickView featuring short, engaging Science and Mathematics videos, demonstrations, and ready-to-use teaching resources. Content is organized by specific topics under **Biology, Chemistry, Physics, Earth Science, Human Geography, and Mathematics**, making it easy to find relevant materials.

> Families all log in as **guests**.

Accessing ClickView and Twig

Sign In

1. Navigate to ClickView.
2. Find the HCOS login information under **Subs/Passwords** in the Search Portal.
3. Follow the guest sign-in process using the HCOS credentials and select "Sign in as a guest."
4. To access Twig Science, select the pink Twig button on the ClickView homepage.

> **Do not** select "Sign in with username or email," "Continue with Google," or "Continue with Microsoft."

How to sign in - written instructions with screenshots

1. Navigate to ClickView.

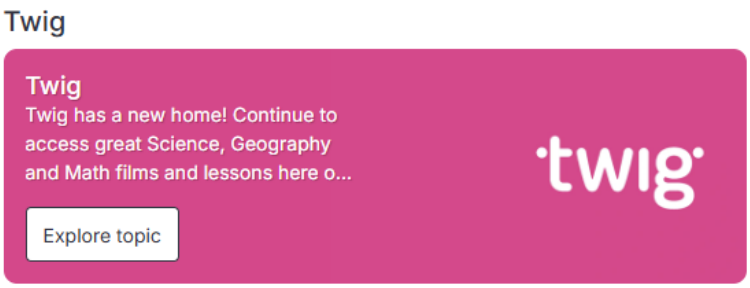

2. Find the username and password under **Subs/Passwords** in the Search Portal.

3. Select the "Sign in as guest" button.

Do not use the black "Sign in with username or email" button and do not use the "Continue with Google or Microsoft" buttons.

4. To access Twig, scroll down the main homepage to the pink "Twig" button.

If you do not see the Twig button, close your tab and use the ClickView link a second time on a new tab.

Using ClickView and Twig

Included Resources and Features

How to use resources and features - written instructions

ClickView

Feature	What it offers	Where to find it
Educational Videos	Engaging videos that explain concepts, introduce topics, and support learning across subjects.	Main desktop, or under the "Discover" button on the left menu bar.
Documentaries or series	Many topics, with video series curated by ClickView, including curriculum links and resources.	Select the "Movies + TV" button from the left menu bar.
Teaching Resources	Ready-to-use worksheets, discussion questions, and supporting activities available with select videos.	Hover over any video thumbnail to see the "Curriculum Links" and "Resources" button. OR Choose a video and scroll down for available resources.

Twig

Feature	What it offers	Where to find it
Subject Related Topics	Short instructional videos organised by subject, topic, and subtopic, making it easy to explore specific concepts and find relevant content.	From the ClickView homepage, scroll down to find the pink Twig button. Choose a subject, then browse by topic and subtopic to find relevant videos.
Fact Packs and Glossary Videos	Key information, definitions, and explanations that reinforce understanding.	Explore the resources available within a selected topic.
Teaching Resources	Lesson plans, worksheets, diagrams, and Teacher Packs that support instruction and activities.	Hover over any video thumbnail to see the "Curriculum Links" and "Resources" button. OR Choose a video and scroll down for available resources.

Feature	What it offers	Where to find it
Experiment Demonstrations	Video demonstrations of scientific experiments that illustrate key concepts, model scientific processes, and encourage observation and discussion.	Select a subject, then topic. (Not all topics contain experiments.) • Scroll down to find the experiments heading. OR • Use the search bar at the top of the page to search for the term "experiments."
