Getting Started With Selecting Curriculum

Curriculum Options and Picks

The *Curriculum Options* page on our website offers carefully vetted suggestions for each core subject by grade level, meeting the needs of most typical home-educating students.

To quickly find our "Picks" (recommended resources that cover key standards without overwhelming you with too many choices), simply filter the *Curriculum Options* by **GRADE** and select ONLY the feature **“HCOS Pick.”**

> Detailed information regarding our curriculum picks can be found in the SOPHIE chapter, Curriculum Picks.

> Purchasing information can be found on our Resource Vendor Directory page.

Curriculum Selection Tools and Tips Webinar

This webinar provides an overview of the curriculum selection process and references many curriculum options that may work for your situation.

Curriculum Consultations

If you need assistance selecting curriculum, please contact your support teacher.

If you are newly enrolled or registered with HCOS and have not yet been connected with your Support Teacher, you may book a curriculum consultation with one of our Curriculum Engagement Facilitators (CEFs). During the consultation, we can learn more about your student, discuss your goals and needs, and explore curriculum options that may be a good fit. Please book an appointment with either Andrea Scott or Erica Corcoran, selecting the available time that works best for your schedule.
