

# Getting Started With Selecting Curriculum

## Curriculum Options and Picks

The [Curriculum Options](#) page on our website offers carefully vetted suggestions for each core subject by grade level, meeting the needs of most typical home-educating students.

To quickly find our "Picks" (recommended resources that cover key standards without overwhelming you with too many choices), simply filter the *Curriculum Options* by **GRADE** and select ONLY the feature **"HCOS Pick."**

The screenshot shows a filter interface with the following elements:

- Grades:** 8 x
- Level of Depth:** Select Depth
- Features:** HCOS Pick x
- Subject:** Select Subjects
- Remove filters** button

Four curriculum pick cards are displayed below the filters:

- Curriculum Pick: BC Science Connections 8 Textbook and Workbook**
  - Level of Depth: Moderate, Rigorous
  - Subject: Science
  - Grade: 8
  - Features: HCOS Pick, Core Curriculum
