

Gizmos

Gizmos (Grades 3-12) is an interactive math and science simulation library. There are over 475 Gizmos to bring powerful new learning experiences to students. Gizmos use an inquiry-based approach to learning validated by extensive research as a highly effective way to build conceptual understanding.

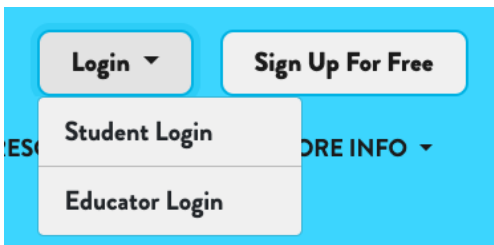

This subscription is not available to HCOS Registered students.

Logging In

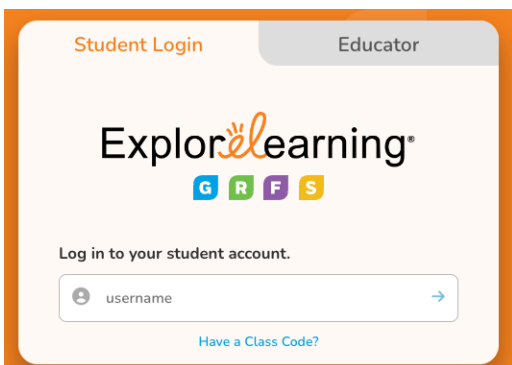

There are four steps to log into Gizmos.

Step 1: Contact our Subscriptions Facilitator, Margaret Basaraba, through email or [Live Chat](#) on regular school days from 9 am. to 3 pm. for the Gizmos class codes.

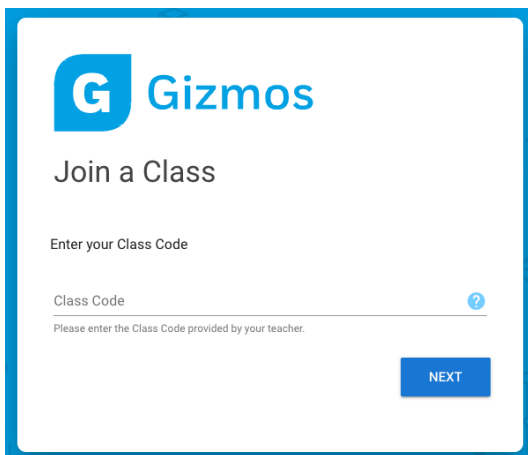

Step 2: Navigate to [Gizmos](#) and click the "Student Login" button in the top right corner.

Step 3: Click "Have a Class Code?"

Step 4: Enter the class code.

The image shows the 'Join a Class' screen of the Gizmos platform. At the top left is the Gizmos logo, which consists of a blue square with a white 'G' followed by the word 'Gizmos' in blue. Below the logo, the text 'Join a Class' is displayed. Underneath, there is a label 'Enter your Class Code' followed by a text input field. To the right of the input field is a small blue circle with a white question mark. Below the input field, a smaller line of text reads 'Please enter the Class Code provided by your teacher.' At the bottom right of the form is a blue button with the word 'NEXT' in white capital letters.

Gizmos has classrooms that students can sign into and work in independently. Student work is saved, and support teachers can log in to view progress.

Navigation & Use

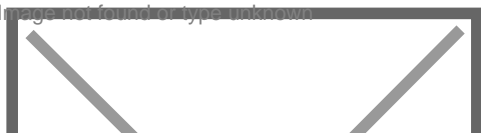

Select “Launch” to begin using a Gizmos.

Image not found or type unknown

When your Gizmo opens, you will see “Lesson Info” and the arrows to select to make the Gizmo fullscreen in the top right corner. Click your keyboard escape button to exit the fullscreen view.

Selecting the “Lesson info” drop-down menu will display the student exploration sheet, which explains how to use the Gizmo. Students can type directly into the document by saving the file to their computer and then typing in either Microsoft Word or Google Docs. There are also vocabulary sheets available for student use.
